Dear FDA,

Forced molting of hens used in egg production is cruel to the birds and increases the spread of Salmonella enteritidis infection. Please grant the petition, filed under docket #98P-0203/CP, that would eliminate this practice.

We used to grow chickens in Sioux City,  
Iowa area — but never in conditions  
like now, thank God.  
If nothing else, let your conscience  
be your guide as after all, you and yours  
eat eggs in one form or another almost  
daily — and think of when they come  
from — the conditions, — and the Salmonella!  
Sincerely
